

Meritor Parts

Meritor Parts - The Meritor Business is a premier global dealer built upon 100 years of tradition of service and quality. Meritor specializes in integrated systems along with different modules and components to the original machinery makers and aftermarket equipment within the transportation and industrial sectors.

Meritor values the wishes of their customers to guarantee their success while priding itself in the company's unique energy and believes this output of energy to be their aggressive advantage in their global operations. Meritor begins with a tradition which values diversity of individuals and their broad thought processes. Operating in 19 nations and hiring over eleven thousand two hundred people, Meritor encourages collaboration and innovation amongst a team of knowledgeable professionals.

Meritor strongly believes in just hiring future focused individuals. These top-caliber workers can quickly adapt to changing surroundings and freely demonstrate the level of commitment and performance necessary to be able to attain results for the competitive market environment. The business empowers their teams to make sound business decisions so as to improve the overall success of the business. In return, Meritor provides all of their workers various opportunities for personal and professional growth.

Their Advanced Engineering team is at the forefront of components and system engineering that include drivelines, axles, suspension and braking systems used for heavy duty and medium trucks, buses, military vehicles, trailers and off-highway vehicles. The Meritor Advanced Engineering team is developing. They opened a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives which represent the entire Asia Pacific region. This particular team is even responsible for supporting the requirements of their global engineering workers.

Meritor's customer focused and dynamic Quality team is dedicated to ensuring optimum processing at their aftermarket distribution facilities and production plants which are located all around the world in 19 nations and in 5 different continents.

The supplier development network is specially located in order to support new business growth. Regional teams are supported by worldwide initiatives, quality systems and centralized specialties in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program promotes a data-driven, fact-based method to decision making in each part of the company. The DFSS or Design for Six Sigma ensures product reliability in each and every region. The team is also comprised of transactional Green Belts who use Six Sigma tools to business techniques and apply lean techniques.
