Clark Totalift, covers more than 120,000 specialized items fabricated for 20 distinctive designs of forklifts and automated equipment. Your local Clark Dealer is your complete source for availability of all your parts needs provided by Clark Totalift.

Clark's extraordinary Parts Distribution Stores are conveniently located in Louisville, Kentucky, which serves both their customers and dealers in North America, and Changwon, South Korea, which handles their Asian sellers and consumers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing manufacturers. Motivated to provide the highest level of value and service to our users, Clark remains on the cutting edge when it comes to enhancing output and benefiting performance.

Globally, Clark has one of the most outstanding supplier support networks. With over 550 locations worldwide, seller representation in over 80 countries and 230 locations in North America, their high level of dedication to their clients predominates the materials handling market.

By pioneering the operator restraint system protection feature, Clark proudly remains a leader of innovation in the industrial equipment and automated forklift industry. This exceptional dedication to safety is now a standard feature on every lift truck.

Clark has a uncompromising objective to possess the No. 1 quality system in the industry which is demonstrated by their commitment to ISO standards. Clark, is the first manufacturer of forklifts and lift trucks to be globally certified with quality standard ISO 9001 in all of its production plants. Also, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be ready for any number of environmental restrictions, thus placing them in a dominant industry position.

Clark has chosen the very economical and advantageous structure of "Lean Production" for its assembly plants and use of resources. This system was established to acknowledge the most successful method of production facility management and ensuring maximum efficiency. Clark has concluded this transition of its Korean facility. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers join together to enhance the efficiency and brilliance of their merchandise while minimizing expenses. The contemporary value engineering program combines modern product growth and offers improved customer support and service within the industry.
