

Rockwell Parts

Rockwell Parts - The business of AxleTech International is a large supplier of specialty vehicle drive-train systems and components together with off highway vehicles. They take great pride in being a chosen supplier to their customer base. AxleTech strives to exceed and meet their clients' expectations for service, technology, delivery and quality. They believe in working within an atmosphere that supports the utmost integrity with empowered teamwork, together with a unrelenting pursuit of results.

AxleTech International falls under the umbrella of General Dynamics. They place great importance on being an environmentally conscious company and providing a safe environment for their workers to work in. Moreover, they have applied lots of programs in the corporation to be able to help convey these values in their business policy. AxleTech gladly shares this policy and welcomes interested parties to provide them with whatever questions or comments, as they are happy to promote and share this policy with a greater understanding of their efforts. They are very devoted to preserving and improving the natural environment. AxleTech has an EHS program which not just protects the natural environment but which also actively protects their neighbors and staff too.

AxleTech prides themselves as being an innovative drive-train solutions provider. They specialize in designing and manufacturing planetary axles meant for both military and commercial applications. These applications vary from construction equipment to airport ground support. AxleTech particularly designs axles to meet particular application demands. They have more than one thousand various axle specs in their existing offering. With more than one hundred years of knowledge and history, AxleTech proudly supplies the most complete solution for any of your axle requirements. The company is well known in several military and commercial applications. They provide complete axle assemblies for aftermarket replacement needs, along with servicing axle needs for OE production. Their high mobility ISAS have added details which could be found in the "ISAS" product selection.
