

## Forklift Spreader Bar

Forklift Spreader Bars - ELME has been proudly operating since nineteen seventy four, becoming the biggest independent spreader manufacturer all over the world. They are a dedicated maker of spreaders utilized for many several applications like the handling of containers, swop bodies and trailers.

ELME currently employs more than a hundred and twenty five staff with all engineering is done in house by means of utilizing all the most up-to-date FEM tools and CAD systems. Their spreaders are supplied to reach stackers, straddle carriers, lift trucks, gantry, quayside and ship-to-shore cranes across the world.

The product range of ELME include a lot of spreaders intended for various container and trailer handling operations. A few of their inventory consist of: Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes, Lift trucks plus a wide array of attachments.

ELME production and manufacturing is done in a highly automated purpose built factory. In 2008, they created over 1150 spreaders by means of making use of top quality parts so as to guarantee dependability and excellent standards while offering competitive prices. Major characteristics of ELME consist of design simplicity, market reaction and ground-breaking modular spreader concept.
